# Cinderella Book Report

## Paragraph 1

Introduction/General Information about the book.

The book I have reviewed is called Cinderella, which was created by The Brother's Grimm many centuries ago. It is a fantasy/romance fairytale.

## Paragraph 2

Main Character

As it states on the front cover, the main character of this book is Cinderella. She is the King's only daughter living with two step-sisters and a step-mother. Cinderella has long golden hair and for most of the story is dressed in dirty rags. She has a kind and caring heart and is loving to all animals she befriends. Unfortunately since her mother died she's been treated like a maid or slave.

## Paragraph 3

Other characters

There are five other characters in the story of Cinderella. Cinderella's dad is the king and he married an evil woman. She has two step sisters who treat her like a slave. The final character is the prince. He is searching for a bride and he sets his sights on Cinderella.

## Paragraph 4

Setting

The fairytale is set about 200 years ago. It takes place in a European country and mainly in an old castle. The description of the setting paints a good picture in your mind. If it wasn't set in a castle, it wouldn't have as much impact.
